Education

Bachelor of Technology in Computer Science and Engineering, SGT University

2022-2026
3.6/4.0

Relevant Coursework : Data structures and algorithm , Database management system , Web development , operating system , OOPS ,etc.

Skills

Technical Skills: Reactjs,Nextjs,Nodejs,Expressjs,Python,HTML5/CSS3,Javascript,TypeScript,Mongo, Git/Github,Redux,Framer motion , Tailwind Css,Java.

Soft Skills : Strong problem-solving abilities, communication skills, excellent teamwork and collaboration, project management, adaptability, time management, and a proactive approach to learning and development.

Interest : Learning new skills, participation in hackathons, travelling.

EXPERIENCE

Zenith Excelencia (Front End Developer)   06/2023 - 08/2023

Completed a remote internship at Zenith Excelencia, focusing on front-end development. Collaborated closely with the development team to implement UI/UX designs, ensuring a seamless user experience. Developed proficiency in HTML, CSS, and JavaScript while creating and maintaining responsive web components using React.js , ensuring optimal performance across devices. Utilized version control systems like Git to manage codebases collaboratively, ensuring smooth workflow and version tracking.

Xellerate (Front End Developer)   12/10/2024 - present

I am currently interning at Xellerate as a full-stack developer, where I create dynamic frontend UIs and develop backend APIs to support seamless application functionality. I actively participate in code review meetings, ensuring code quality, performance, and best practices. This role has strengthened my technical skills and collaborative development experience.

PROJECTS

Gatherly: https://job-portel-bay.vercel.app/

Gatherly is an event management platform built with Next.js, Tailwind CSS, TypeScript, and MongoDB, enabling users to create events and sell tickets through a secure payment gateway.

Hirex : https://job-portel-bay.vercel.app/

Hirex is a job portal platform that allows users to post job listings and apply for available job opportunities seamlessly. Tech Stack : Nextjs, Tailwinds css, Supabase , Stripe.

EarlyDetect : https://job-portel-bay.vercel.app/

Early Detect is an AI-powered project aimed at cancer detection. It currently focuses on detecting general cancer and skin cancer, utilizing Python, Next.js, and a Flask API for efficient diagnosis solutions.

LEADERSHIP AND ACTIVITIES

- Contributed to feature discussions, code optimization, and collaborative problem-solving sessions as a full-stack developer at Xellerate.
- Played a key role in cross-functional discussions for efficient development of frontend UIs and backend APIs.
- Member of Tuskers Club, a university speaking club, enhancing public speaking and leadership skills through regular participation and events.
