SUMMARY

Full-stack developer and Computer Science undergraduate with experience building scalable web applications, dashboards, and workflow-driven systems. Skilled in developing production-ready frontend and backend solutions in startup environments.

EDUCATION

SGT University

Bachelor of Technology, Computer Science (CGPA: 9.3)

Gurgaon, Haryana

2022 – 2026

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, SQL

Frontend: React.js, Next.js, Tailwind CSS, HTML, CSS

Backend: Node.js, Express.js, REST APIs

Databases & Cloud: MongoDB, PostgreSQL, Supabase, AWS SNS, AWS SQS

Tools: Git, GitHub, Postman, Vercel

EXPERIENCE

Full Stack Developer

JobsUPI

September 2025 – Present

- Developed and managed multiple full-stack features using Next.js, TypeScript, Node.js, and Prisma ORM.
- Built responsive dashboards, dynamic forms, applicant workflows, and reusable UI components.
- Created REST APIs and optimized applicant/job workflow management.
- Worked on notification and asynchronous processing systems using AWS SNS and AWS SQS.
- Collaborated on feature planning, debugging, performance optimization, and production-ready implementations.
- Improved code maintainability through modular architecture and reusable components.

Full Stack Developer

Xellerate

November 2024 – August 2025

- Integrated REST APIs with dynamic frontend components for seamless workflows.
- Built responsive and scalable UI components for enhanced user experience.
- Implemented document workflows, email automation, and Excel import/export features.

Frontend Web Developer

Zenith Excelencia

June 2023 – August 2023

- Developed responsive web pages and reusable frontend components.
- Built accessible UI elements using ShadCN and modern frontend practices.

PROJECTS

Elara - Perfume E-Commerce Platform | *Next.js, TypeScript, Supabase, Tailwind CSS*

- Developed a responsive perfume e-commerce platform with dynamic product workflows.
- Built product listings, cart functionality, and reusable UI components.
- Integrated Supabase for backend services and database management.

Bookshelf – Library Management System | *Next.js, PostgreSQL, Drizzle, Upstash Redis*

- Developed a scalable library management platform with admin and user workflows.
- Implemented Redis rate limiting and automated email workflows.
- Built scalable backend architecture using PostgreSQL and Drizzle ORM.
